RESORT VILLAGE OF GRANDVIEW BEACH
POLICY MANUAL

POLICY TITLE:	POLICY NUMBER:	EFFECTIVE DATE:
WATER POLICY	**2025 - 08**	14/05/25
ORIGIN:	ADOPTED BY COUNCIL	AMENDED DATE:
Administration	May 14,2025	

Purpose:

1. To set guidelines for the Hygienic Water System and Municipal Water Well.

HYGIENIC WATER SYSTEM:

2. Every spring after the threat of frost has passed the hygienic water system will be started up. The system will be shut down for the season at the end of September before the threat of frost. The dates will be determined by the Council.
3. The properties located in Block 5A will not be able to connect to the water system.
4. A new connection to the water system may be permitted upon installation of a valve system as per "Schedule 1". The valves will be available from the Village at a cost of $175.00 or $250.00 cost if the water box has two hookups. The double box system will be split in half for each residence using the service and the cost will be $125.00 to each household. (subject to change with inflation of prices). Approval of private installation is required from the Village office as well as the type of valves purchased. The Village office must be contacted for any installation or interruption of utility service.

MUNICIPAL WATER WELL:

6. The water well located at 28 Ash street is available to all ratepayers and will be tested on a regular basis while the Hygienic system is being operated. When the water is being tested on a regular basis it is considered to be potable water. After the shutdown of the Hygienic system a Precautionary drinking water advisory (PDWA" is put on the system until startup of the Hygienic system in the spring.
7. Water shall be limited to 5 gallon jugs band not used for filling personal water tanks.

The cost for operating the Hygienic System and the Municipal water well is financed and budgeted by the Resort Village.
